\* The Certificate taught as part of this degree is included in the course price.

In accordance with the provisions of Article 20.9 of Law 37/1992 of December 28 on Value Added Tax (VAT), the amounts paid to the university are exempt from VAT. If current legislation were to establish that these payments are subject to and not exempt from the tax, the University will apply the corresponding VAT to those amounts as required.

#### « COSTS NOT INCLUDED

Payment of academic fees covers official university instruction. The following items are **not included** in these amounts and must therefore be paid separately by each student:

- Transportation expenses for students to internship or placement centers (hospitals, healthcare institutions, hotels, museums, courts, external sports centers and facilities, etc.).

- The purchase of individual-use equipment required for each degree (lab coats, scrubs and specialized healthcare footwear; protective equipment; clinical instruments and dental consumables; personal tools and drawing boards; sports shoes, clothing and equipment, etc.).
- Books, stationery, and computer-related materials. All of these must be purchased by each student from suppliers of their choice, unless expressly indicated otherwise by the University.

## « SPANISH COURSE FOR FOREIGNERS

The Personalized Spanish Language Support Program for International Students for the 2026/2027 academic year has a cost of:

<b>FIRST YEAR: €2,400</b> Payment options for the first year:	<b>SECOND AND THIRD YEAR: €800/per course.</b>
<b>Single payment:</b> Total amount: €2,400	
<b>Installment payment:</b> Place reservation: €375 9 installments of €225 each.	

**Students who provide proof of a B2 level of Spanish** by submitting a Certificate issued by the Instituto Cervantes or another authorized Center\* at the time of the student's ADMISSION will be exempt from taking this mandatory course. **(Certificates proving the student's level will not be accepted after this date).**

**Payment for the course must be made together with the corresponding amount for the place reservation and enrollment.**

Until this payment is made, the student will not receive the access keys to the UAX Virtual Campus, which are necessary to start the program.

- Total academic fees stipulated for each program include the **place reservation, enrollment, and monthly installments**. This amount is the minimum amount accepted by the University regardless of the number of credits enrolled.
- **Rates apply to the course in which the student is enrolled and may vary for successive courses**. The prices applicable to the second and subsequent years will be those published for the corresponding academic years.
- **Students who enroll in additional credits**, more than 60 ECTS per year in any degree and more than what is indicated in the study plan for each double degree, will pay, in addition to the amount corresponding to the monthly installment, the amounts resulting from multiplying the unit prices established for each credit by the number of additional credits.
- **The ECTS credit amount shown in the Fee table** is used to calculate payments for additional credits or partial enrollment payments for credit transfers, if applicable.
- **In the case of authorized partial enrollments**, the payment system per credit requires a study of the student's academic situation, credit transfers, and possible enrollment. We recommend consulting with an advisor.

The authorization conditions for partial enrollments at UAX (on-campus modality), as well as any exceptions or special conditions, are detailed and can be consulted in the ['Document on economic conditions for partial enrollments'](#).
